Nuello® iN

Storage and Handling:

Nuello® iN contains living organisms. Store in a cool, dry place. Avoid extreme hot or cold temperatures and store out of direct sunlight.

Shelf Life from Batch Date:

Unopened 40 gm pack	18 months – best practice use within one year
On treated seed	Use during the season of treating

Compatibility

Nuello® iN is compatible with most leading seed treatments when co-applied. NOT IN A TANK MIX.

Application:

Nuello® iN can be applied through conventional seed treaters provided that they are clean and correctly calibrated.

Crop	Cereals
Timing	As a seed treatment before drilling
N° of applications	1
Rate	Nuello® iN (microbes) 8 gm/ tonne seed

Crops: Cereals and other agricultural & horticultural crops (including: Maize, Oilseed Rape and Pulses).

For further information on use rate in other crops contact Product Technical Enquiries on 0845 6025239

Nuello® iN contains living microbes, ensure good practice to achieve desired benefits:

- ✓ Shake well in water until dissolved prior to applying as a seed treatment
- ✓ Use within 72 hours of mixing
- ✓ Water volume: Minimum of 4 litres of water per tonne of seed to ensure adequate coverage
- ✓ Water pH: 5.5 – 8.5
- ✓ If co-applying with other seed treatments, avoid tank mixing.
- ✓ Store treated seed in a dry place correctly labelled
- ✓ Drill as recommended
- ✓ Only use unopened sachets
