ACTIVITY PACK

Open up to find fun activities and a poster for you to colour

We combine technologies in seeds and crop protection to help farmers increase the size of their harvest without using more land, water or inputs.

We train millions of farmers around the world in the effective and safe use of crop protection products.

We help biodiversity flourish by working with farmers to grow wildlife friendly habitats.

Did you know?

It takes around 7,000 grains of wheat to make one loaf of bread.

Food, feed and fuel

Oilseed Rape plants can be used to produce oil for cooking and biodiesel, and material for animal feed.

Busy bees

There are over 2,000 species of bees in Europe – many of these help to pollinate crops.
