SY TENNYSON

SY Splendor x LG Diablo

SY TENNYSON at a glance

- High yielding spring malting barley
- Provisional MBC approval for brewing and malt distilling
- Ability to make a range of grain N with outstanding quality for both major markets in the UK

Mildew [8]

Brown Rust 4

Rhynchosporium 5

Yield (% treated controls)

UK	E	W	N
102	102	101	102

Agronomics

Height no PGR (cm)	72
Resistance to lodging (1-9)	[7]
Resistance to brackling (1-9)	7
Ripening (Days +/- RGT Planet)	+2

Grain Quality

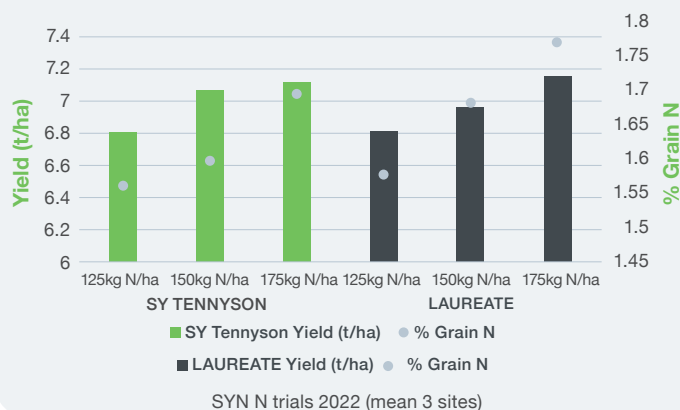

Hot Water Extract	315.5 (l deg/kg)
Predicted Spirit Yield	436.8 (laa/t)
Good Specific Weight	66.5 kg/hl
% Screenings	2.25 mm ~ 1.4 2.5 mm ~ 3.2

SY TENNYSON demonstrates suitability for both brewing and malt distilling

SY TENNYSON has potential for both brewing and malt distilling with Provisional MBC Approval for both markets. It is important to check locally the availability of contracts for SY TENNYSON before growing the variety. It is important to know what market your grain is going to so you can tailor your inputs and achieve the correct specification.

SY TENNYSON for brewing

- Aim for a % grain N 1.6-1.75%
- 2 splits of nitrogen will help achieve higher % N

SY TENNYSON for malt distilling

- Aim for a % grain N of below 1.65%
- 100% application of nitrogen in the seedbed will help to keep the nitrogen lower
