# FLAGON

A heritage winter  
malting barley with  
outstanding quality

## Heritage malt:

**FLAGON** was first launched in 2005 and remains one of the UKs heritage winter malts.

It has outstanding quality characteristics with strong support from UK Maltsters and Brewers.

Many contracts are available, especially in East Anglia where it remains a popular variety.

**As with true heritage,  
FLAGON continues to  
improve with age!**
