

This seed has been treated with

MAPP 16630

syngenta.

CELEST EXTRA contains fludioxonil and difenoconazole for control against seed-borne diseases on winter crops of wheat, oats and rye and also soil-borne bunt. Seed should be drilled within one month of treatment and should not be kept from one season to the next.

SAFETY PRECAUTIONS

HARMFUL TO GAME AND WILDLIFE. To protect birds and wild mammals, treated seed should not be left on the soil surface. Bury or remove spillages.

THIS SEED HAS BEEN CHEMICALLY TREATED.

DO NOT HANDLE seed unnecessarily.

DO NOT USE TREATED SEED as food or feed. **SACKS CONTAINING TREATED SEED MUST NOT BE RE-USE FOR FOOD OR FEED.**

KEEP TREATED SEED SECURE from people, domestic stock/pets and wildlife at all times during storage and use.

BURY OR REMOVE SPILLAGES.

DO NOT CONTAMINATE surface waters or ditches with chemical or used container.

WASH HANDS AND EXPOSED SKIN before meals and after work.

DO NOT APPLY TREATED SEED FROM THE AIR.

TREATED SEED SHOULD NOT BE BROADCAST. Seed should be drilled to a depth of 40 mm into a well prepared seedbed.

If seed is present on the soil surface, or if spills have occurred, then, if conditions are appropriate, the field should be harrowed and then rolled to ensure good incorporation.

CAUTION

CELEST EXTRA may reduce the flow rate of seed in a seed drill. Recalibrate drill with CELEST EXTRA treated seed before drilling.

NOTES

1. Safe Handling of Treated Seed
Avoid skin contact with treated seed and dust during all drilling operations. Launder coveralls daily.

2. Drilling

Check drill calibration before drilling for each batch of seed to ensure an accurate drilling rate. Avoid adverse seedbed conditions and deep or shallow drilling which may adversely affect crop establishment and reduce the level of pest control.

3. Storage

Seed should be stored in a cool, dry, well ventilated building and be drilled as soon as possible after treatment. Drill within the season of treatment.

4. Seed Spillages

In case of seed spillage, clean up as much as possible into the related seed sack and re-use the clean seed. Bury the remainder completely.
