STORITE EXCEL TANK MIX LIST

The following tank mix has been tested for physical compatibility with STORITE EXCEL at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of STORITE EXCEL with Gavel with the following caveats:

1. STORITE EXCEL should go in the sprayer tank first **every time**, then add the Gavel agitating continuously.
2. STORITE EXCEL + Gavel was borderline compatible therefore the mix should have **constant agitation at all times**.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Use plant protection products safely. Always read the label and product information before use.
