DUAL GOLD TANK MIX LIST

The following tank mixes have been tested for physical compatibility with DUAL GOLD at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support 2-way tank mixes of DUAL GOLD with any of the herbicides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 169 6058.

HERBICIDES

CALLISTO Stomp Aqua

INSECTICIDES

MINECTO ONE

TRACE ELEMENTS

Syngenta UK Ltd will support the tank mixing of one of the named trace elements with an existing 2-way tank mix including DUAL GOLD. Syngenta UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

LERAP: Category B. Rainfastness: 1 hour

Use plant protection products safely. Always read the label and product information before use.
