

FUBOL GOLD TANK MIX LIST

The following tank mixes have been tested for physical compatibility with FUBOL GOLD at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of FUBOL GOLD with any of the fungicides, herbicides or insecticides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

*All Nutrel trace elements are supported/tested by Nutrel.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

FUBOL GOLD WG is INCOMPATIBLE with Curzate M WG.

FUBOL GOLD WG and any formulation of Boron is INCOMPATIBLE.

Syngenta UK Ltd is unable to support a tank mix of FUBOL GOLD WG with Titus.

LERAP: None.

Rainfastness: Do not apply when rain is actually falling and not less than 2-3 hours prior to rainfall.

**Use plant protection products safely. Always read
the label and product information before use.**
