

LIZARD TANK MIX LIST

The following tank mixes have been tested for physical compatibility with LIZARD at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of LIZARD with any of the fungicides, herbicides, insecticides or PGRs listed. In addition, products **highlighted** have been tested for biological and physical compatibility. For further information on compatibilities, contact Syngenta UK Ltd on 0800 169 6058.

Aphox	Decis Forte
Decis Protech	HALLMARK ZEON

PGRs

Adjust	Canopy	MODDUS
Barleyquat	K2	Stabilan
3C Chlormequat 750	Medax Max	

TRACE ELEMENTS

Syngenta UK Ltd will support the tank mixing of any of the named trace elements with an existing 2 or 3-way tank mix including LIZARD. Syngenta UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

2 February 2022

¹Caution when applying an SU to oats in mixture with any product when close to/at growth stage cut-off (GS41). Can cause trapped panicles.

Buffer zone: 6 metres

Rainfastness: After 1 hour

**Use plant protection products safely.
Always read the label and product information before use.**
