MERISTO TANK MIX LIST

The following tank mixes have been tested for physical compatibility with MERISTO at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2-way tank mixes of MERISTO with any of the fungicides, herbicides and insecticides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 169 6058.

FUNGICIDES

Comet 200 Opera

HERBICIDES

Dow Shield MILAGRO 400D** Stomp 400¹ DUAL GOLD PEAK*

INSECTICIDES

Mavrik

TRACE ELEMENTS

Syngenta UK Ltd will support the tank mixing of one of the named trace elements with any existing 2-way tank mix including MERISTO. Syngenta UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

^{*}When MERISTO is tank mixed with PEAK, a non-ionic adjuvant does NOT need to be added.

**When MERISTO is tank mixed with MILAGRO 40OD, an esterified rapeseed oil does NOT need to be added.

^{***}All Nutrel trace elements are tested/supported by Nutrel.

¹ Constant agitation at all times

MERISTO is INCOMPATIBLE with Nutrel Maize Micro Booster.

LERAP: Category B. Rainfastness: 1 hour

Use plant protection products safely. Always read the label and product information before use.
