

MINECTO ONE TANK MIX LIST

The following tank mixes have been tested for physical compatibility with MINECTO ONE at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of MINECTO ONE with any of the fungicides, herbicides, insecticides or adjuvants listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

TRACE ELEMENTS

Syngenta UK Ltd will support the tank mixing of one of the named trace elements with an existing 2 or 3-way tank mix including MINECTO ONE.

Syngenta UK Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

Headland Manganese 15%

NOTE(S)

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.
