

NINJA 5CS TANK MIX LIST

The following tank mixes have been tested for physical compatibility with NINJA 5CS at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of NINJA 5CS with any of the fungicides, herbicides, insecticides or adjuvants listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

YaraVita Ferleaf	YaraVita Mantrac 500	

NOTE(S)

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

¹ Winter OSR only. Continuous agitation.

² Do not use during flowering

³ Ally Max SX = can read across to all other DuPont SUs.

⁴ Supported by Dow

Use plant protection products safely.
Always read the label and product information before use.
