

TOPREX TANK MIX LIST

The following tank mixes have been tested for physical compatibility with TOPREX at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of TOPREX with any of the fungicides, herbicides or insecticides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

FUNGICIDES

Agate  
AMISTAR

Folicur

YaraVita Zintrac 700

### NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

TOPREX is **INCOMPATIBLE** with Filan and Headland Sulphur.

\*Tested and supported by DuPont.

LERAP: B

Rainfastness: 2 hours

**Use plant protection products safely. Always read  
the label and product information before use.**
