

SPANDIS TANK MIX LIST

The following tank mixes have been tested for physical compatibility with SPANDIS at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta UK Ltd will support a 3-way tank mix of SPANDIS with any of the herbicides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 169 6058. **SPANDIS used alone should always have either ADIGOR or Biopower added at the recommended dilution rate.**

HERBICIDES

CALLISTO CAMIX	Diva	Stomp Aqua
-------------------	------	------------

BIOSTIMULANTS

Megafol	QUANTIS	Yield-On
---------	---------	----------

ADJUVANTS

ADIGOR	Biopower
--------	----------

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Buffer Zone: 5 metres
Rainfastness: 1 hour

Use plant protection products safely. Always read the label and product information before use.
