

Extender

syngenta®

Extender is a metabolite-nutrient complex to be co-applied with Nuello® iN seed treatment.

Application Equipment

EXTENDER can be applied through conventional seed treaters providing they are clean and correctly calibrated.

Water Volume

Minimum of 4 litres of water per tonne of seed to ensure adequate coverage.

Recommended Uses

Add 9 litres of water to the EXTENDER 10 litre bottle to create the correct dilution for use. Then apply at a rate of 1 litre/tonne in combination with Nuello® iN.

Crops:

Cereals and other agricultural & horticultural crops (including: Maize, Oilseed Rape and Pulses).

For further information on other crops contact Product Technical Enquiries on 08001696058

USER SAFETY

Compatibility

Extender with Nuello® iN is compatible with most leading seed treatments when co-applied. NOT IN A TANK MIX.

Storage

Store in a cool, dry place. Keep container tightly closed and out of direct sunlight during storage. Store above 0°C.

Shelf Life

2 years in original container. Once diluted with 9 L water and Nuello® iN, use within 24 hours of mixing.
