SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

| Trade name | : | OLUPAL |
|------------------------------------|---|---------------------|
| Design code | : | A21796A |
| Product Registration Number | : | MAPP19849 |
| Unique Formula Identifier (UFI) | : | N1M4-J0KV-4009-3YP3 |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the Sub- | : Herbicide |
|-----------------|-------------|
| stance/Mixture | |

1.3 Details of the supplier of the safety data sheet

| Company | : | Syngenta UK Limited CPC4, Capital Park Fulbourn, Cambridge CB21 5XE United Kingdom |
|--|---|---|
| Telephone | : | +44 (0) 1223 883400 |
| Telefax | : | +44 (0) 1223 882195 |
| E-mail address of person responsible for the SDS | : | customer.services@syngenta.com |

1.4 Emergency telephone number

Emergency telephone num- : +44 1484 538444 ber

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Skin irritation, Category 2 Skin sensitisation, Sub-category 1A Reproductive toxicity, Category 2 Long-term (chronic) aquatic hazard, Category 2 H315: Causes skin irritation.H317: May cause an allergic skin reaction.H361d: Suspected of damaging the unborn child.H411: Toxic to aquatic life with long lasting effects.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

OLUPAL

| | P2 P2 P2 | Obtain special instructions before use. Avoid breathing mist or vapours. Wash skin thoroughly after handling. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection. |
| | Re | esponse: |
| | at | 308 + P313 IF exposed or concerned: Get medical advice/ tention. 391 Collect spillage. |
| | Pt wa cle | isposal: 501 Dispose of contents/container to a licensed hazardous- aste disposal contractor or collection site except for empty ean ontainers which can be disposed of as non-hazardous waste. |

Hazardous components which must be listed on the label: 2-methylpentane-2,4-diol pinoxaden (ISO) cloquintocet-mexyl

Additional Labelling

EUH401

To avoid risks to human health and the environment, comply with the instructions for use.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative tive and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

SECTION 4: First aid measures

4.1 Description of first aid measures

| General advice | : | Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment. |
|-----------------------------|-------|--|
| If inhaled | : | Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respira- tion. Keep patient warm and at rest. Call a physician or poison control centre immediately. |
| In case of skin contact | : | Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use. |
| In case of eye contact | : | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required. |
| If swallowed | : | If swallowed, seek medical advice immediately and show this container or label. Do not induce vomiting: contains petroleum distillates and/or aromatic solvents. |
| 4.2 Most important symptoms | and e | ffects, both acute and delayed |
| Symptoms | : | Aspiration may cause pulmonary oedema and pneumonitis. |

4.3 Indication of any immediate medical attention and special treatment needed

| Treatment | There is no specific antidote available. Treat symptomatically. Do not induce vomiting: contains petroleum distillates and/or aromatic solvents. |
|-----------|--|
| | |

SECTION 5: Firefighting measures

| 5.1 Extinguishing media | | | | | |
|------------------------------|---|--|--|--|--|
| Suitable extinguishing media | : | Extinguishing media - small fires Use water spray, alcohol-resistant foam, dry chemical or car- bon dioxide. | | | |

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

| OLU | OLUPAL | | | | | |
|---|---|---|--|--|--|--|
| Version 2.1 | Revision Date: 16.08.2023 | - | OS Number: 0054370690 | Date of last issue: 04.07.2022 Date of first issue: 22.02.2022 | | |
| | | | Extinguishing me Alcohol-resistant or Water spray | foam | | |
| Unsuitable extinguishing : Do not use a so media fire. | | | | d water stream as it may scatter and spread | | |
| 5.2 Spe | cial hazards arising from | the | e substance or mi | xture | | |
| • | ecific hazards during fire- ting | As the product contains combustible organic components, fir will produce dense black smoke containing hazardous prod- ucts of combustion (see section 10). Exposure to decomposition products may be a hazard to health. | | | | |
| 5.3 Adv | ice for firefighters | | | | | |
| | Special protective equipment : Wear full protective clothing and self-contained breathing for firefighters paratus. | | | ve clothing and self-contained breathing ap- | | |
| Fur | ther information | : | courses. | off from fire fighting to enter drains or water ainers exposed to fire with water spray. | | |
| SECTIO | N 6: Accidental releas | | noacuroc | | | |

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | : | Refer to protective measures listed in sections 7 and 8. |
|----------------------------------|------|--|
| 6.2 Environmental precautions | | |
| Environmental precautions | : | Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities. |
| 6.3 Methods and material for cor | ntai | nment and cleaning up |
| Methods for cleaning up | : | Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to loca |

sorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water.

6.4 Reference to other sections

For disposal considerations see section 13., Refer to protective measures listed in sections 7 and 8.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

OLUPAL

| Version | Revision Date: | SDS Number: | Date of last issue: 04.07.2022 |
|---------|----------------|--------------|---------------------------------|
| 2.1 | 16.08.2023 | S00054370690 | Date of first issue: 22.02.2022 |

SECTION 7: Handling and storage

| 7.1 Precautions for safe handling | | | | | | | |
|--|---|--|--|--|--|--|--|
| Advice on safe handling : | No special protective measures against fire required. Avoid contact with skin and eyes. When using do not eat, drink or smoke. For personal protection see section 8. | | | | | | |
| 7.2 Conditions for safe storage, inc | 7.2 Conditions for safe storage, including any incompatibilities | | | | | | |
| Requirements for storage : areas and containers | No special storage conditions required. Keep containers tight- ly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. | | | | | | |
| 7.3 Specific end use(s) | | | | | | | |
| Specific use(s) : | For proper and safe use of this product, please refer to the approval conditions laid down on the product label. | | | | | | |

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

| Components | CAS-No. | Value type (Form of exposure) | Control parameters | Basis |
|--|---------------------------------|-------------------------------|---------------------|------------|
| hydrocarbons, C10-C13, aromat- ics, <1% naphtha- lene | Not As- signed | TWA | 8 ppm 50 mg/m3 | Supplier |

8.2 Exposure controls

Engineering measures

Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.

The extent of these protection measures depends on the actual risks in use.

Maintain air concentrations below occupational exposure standards. Where necessary, seek additional occupational hygiene advice.

Personal protective equipment

| Eye/face protection Hand protection | : | No special protective equipment required. |
|---|---|--|
| Material Break through time Glove thickness | : | Nitrile rubber > 480 min 0.5 mm |
| Remarks | : | Wear protective gloves. The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local condi- tions under which the product is used, such as the danger of cuts, abrasion, and the contact time. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. |
| Skin and body protection | : | Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe- cific work-place. Remove and wash contaminated clothing before re-use. Wear as appropriate: Impervious clothing |
| Respiratory protection | : | No personal respiratory protective equipment normally re- quired. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. |
| Protective measures | : | The use of technical measures should always have priority over the use of personal protective equipment. When selecting personal protective equipment, seek appro- priate professional advice. |

SECTION 13: Disposal considerations

| 13.1 Waste treatment methods | |
|------------------------------|---|
| Product | Do not contaminate ponds, waterways or ditches with chemical or used container. Do not dispose of waste into sewer. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. |
| Contaminated packaging | Empty remaining contents. Triple rinse containers. Empty containers should be taken to an approved waste han- dling site for recycling or disposal. Do not re-use empty containers. |
