

KAYAK TANK MIX LIST

The following tank mixes have been tested for physical compatibility with KAYAK at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance, therefore use is at user's own risk. Syngenta UK Ltd will support the physical compatibility of 2 or 3-way tank mixes of KAYAK with any of the fungicides, herbicides, insecticides or PGR's listed. In addition, products **highlighted** have been tested for biological and physical compatibility. For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

FUNGICIDES

AMISTAR	Flexity	Prosaro
AMISTAR MAX	Folicur	QUADRIIS

WATER SOFTENER

Xchange²

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

KAYAK is PHYSICALLY INCOMPATIBLE with Headland Sulphur

¹Ally Max SX = can read across to all other FMC SUs.

²Tested and supported by BASF.

*Continuous agitation required at all times.

LERAP: None.

Rainfastness: 1 hour

**Use plant protection products safely. Always read
the label and product information before use.**
