SCITEC TANK MIX LIST

The following tank mixes have been tested for physical compatibility with SCITEC at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance, therefore use is at the user's own risk. Syngenta UK Ltd will support the physical compatibility of 2-way tank mixes of SCITEC + chlormequat (classed as one product) with any of the fungicides, herbicides, insecticides or PGRs listed except in the case of spring oats (see notes). For further information on compatibilities, contact Syngenta UK Ltd on 0800 1696058.

FUNGICIDES

AMISTAR ELATUS ERA Opera
AMISTAR MAX ELATUS PLUS Proline
APROVIA PLUS ERA Talius
Bontima Fandango Tracker

Caramba Folicur VELOGY PLUS Cebara Justice UNIVERSALIS

CERATAVO PLUS KAYAK Zulu

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Syngenta UK Ltd will not support the mixing of SCITEC with any product containing carfentrazoneethyl.

SCITEC + chlormequat + SU + fungicide supported in winter wheat **only**.

LERAP: None

Rainfastness: After 2 hours.

Use plant protection products safely. Always read the label and product information before use.
