SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Product name : BRAVO 500
Design code : A7867A

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use : Fungicide

1.3 Details of the supplier of the safety data sheet

Company : Syngenta UK Limited
CPC4, Capital Park
Fulbourn, Cambridge
CB21 5XE

Telephone : (01223) 883400
Telefax : (01223) 882195
Website : www.syngenta.co.uk

1.3 Emergency telephone number

: +44 (0) 1484 538444

SECTION 2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation (EU) 1272/2008

Skin sensitisation Category 1 H317
Eye irritation Category 2 H319
Acute toxicity (Inhalation) Category 4 H332
Specific target organ toxicity - single exposure Category 3 H335
Carcinogenicity Category 2 H351
Acute aquatic toxicity Category 1 H400
Chronic aquatic toxicity Category 1 H410

For the full text of the H-Statements mentioned in this Section, see Section 16.
2.2 Label elements

Labelling: Regulation (EC) No. 1272/2008

Substances for which there are Community workplace exposure limits. For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4. FIRST AID MEASURES

4.1 Description of first aid measures

General Advice : Have the product container, label or Material Safety Data Sheet with you when calling the Syngenta emergency number, a poison control centre or physician, or going for treatment.

Inhalation : Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or Poison Control Centre immediately.

Skin Contact : Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.

Eye Contact : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.

Ingestion : If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms : No information available.

4.3 Indication of any immediate medical attention and special treatment needed

Medical advice : There is no specific antidote available. Treat symptomatically.
SECTION 5. FIREFIGHTING MEASURES

5.1 Extinguishing media
Extinguishing media - small fires
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Extinguishing media - large fires
Use alcohol-resistant foam or water spray.
Do not use a solid water stream as it may scatter and spread fire.

5.2 Special hazards arising from the substance or mixture
As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10). Exposure to decomposition products may be a hazard to health.

5.3 Advice for fire-fighters:
Wear full protective clothing and self-contained breathing apparatus. Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water spray.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Refer to protective measures listed in sections 7 and 8.

6.2 Environmental precautions:
Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system.

6.3 Methods and materials for containment and cleaning up
Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). If the product contaminates rivers and lakes or drains inform respective authorities.

6.4 Reference to other sections
Refer to protective measures listed in sections 7 and 8.
Refer to disposal considerations listed in section 13.

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling
No special protective measures against fire required. Avoid contact with skin and eyes. When using do not eat, drink or smoke. For personal protection see section 8.

7.2 Conditions for safe storage, including any incompatibilities
No special storage conditions required. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs.

7.3 Specific end use(s)
Registered Crop Protection products: For proper and safe use of this product,
SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

<table>
<thead>
<tr>
<th>Components</th>
<th>Exposure limit(s)</th>
<th>Type of exposure limit</th>
<th>Source</th>
</tr>
</thead>
<tbody>
<tr>
<td>chlorothalonil</td>
<td>0.1 mg/m³</td>

<td>10 mg/m³ (Particulates)</td>
<td>8 h TWA</td>
<td>UK HSE</td>
</tr>
<tr>
<td></td>
<td>150 ppm, 470 mg/m³ (Total (vapour &amp; particulates))</td>
<td>8 h TWA</td>
<td>UK HSE</td>
</tr>
</tbody>
</table>

The following recommendations for exposure controls/personal protection are intended for the manufacture, formulation and packaging of the product.

8.2 Exposure controls

Engineering Measures: Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated. The extent of these protection measures depends on the actual risks in use. If airborne mist or vapours are generated, use local exhaust ventilation controls. Assess exposure and use any additional measures to keep airborne levels below any relevant exposure limit. Where necessary, seek additional occupational hygiene advice.

Protective measures: The use of technical measures should always have priority over the use of personal protective equipment. When selecting personal protective equipment, seek appropriate professional advice. Personal protective equipment should be certified to appropriate standards.

Respiratory protection: A combination gas, vapour and particulate respirator may be necessary until effective technical measures are installed. Protection provided by air-purifying respirators is limited. Use a self-contained breathing apparatus in cases of emergency spills, when exposure levels are unknown, or under any circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: Chemical resistant gloves should be used. Gloves should be certified to an appropriate standard. Gloves should have a minimum breakthrough time that is appropriate to the duration of exposure. The breakthrough time of gloves varies according to the thickness, material and manufacturer. Gloves should be changed when breakthrough is suspected. Suitable material: nitrile rubber.

Eye Protection: If eye contact is possible, use tight-fitting chemical safety goggles and a faceshield.

Skin and body protection: Assess the exposure and select chemical resistant clothing based on the potential for contact and the permeation / penetration characteristics of the clothing material. Wash with soap and water after removing protective clothing. Decontaminate clothing before reuse, or use disposable equipment (suits, aprons, sleeves, boots, etc.). Wear as appropriate: impervious protective suit.
SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical State: Liquid
Form: Suspension
Colour: Grey white to light beige
Odour: Pungent, weak
Odour Threshold: No data available
pH: 5 – 9 at 1 % w/v
Melting point/range: -5 °C
Boiling point/boiling range: >100 °C
Flash point: >99 °C at 99.6 kPa Pensky-Martens c.c.
Evaporation rate: No data available
Flammability (solid, gas): No data available
Lower explosion limit: No data available
Upper explosion limit: No data available
Vapour pressure: No data available
Relative vapour density: No data available
Density: 1.24 g/cm³
Solubility in other solvents: No data available
Partition Coefficient: No data available
n-octanol/water
Autoignition temperature: No data available
Thermal decomposition: No data available
Viscosity, dynamic: No data available
Viscosity, kinematic: No data available
Explosive properties: Not explosive
Oxidizing properties: Not oxidising

9.2 Other information

: No data available

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity
: No information available

10.2 Chemical Stability
: No information available

10.3 Possibility of hazardous reactions
: None known. Hazardous polymerisation does not occur.

10.4 Conditions to avoid
: No information available

10.5 Incompatible materials
: No information available

10.6 Hazardous decomposition products
: Combustion or thermal decomposition will evolve toxic and irritant vapours.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute oral toxicity: LD50 rat, 4,200 mg/kg
Acute inhalational toxicity: LC50 rat, > 1.96mg/l, 4 h
Acute dermal toxicity: LD50 rabbit, > 20,000 mg/kg
Skin corrosion/irritation: Rabbit: mildly irritating
Serious eye damage/eye: Rabbit: moderately irritating
BRAVO 500
Version 10 - This version replaces all previous versions.
Revision Date 23.09.2013

irritation
Respiratory or skin sensitisation
Germ cell mutagenicity Chlorothalonil
Carcinogenicity chlorothalonil
Reproductive toxicity chlorothalonil
STOT – single exposure chlorothalonil
STOT – repeated exposure chlorothalonil

: Buehler Test guinea pig: A skin sensitizer in animal tests.
: Did not show mutagenic effects in animal experiments.
: Chlorothalonil causes kidney tumours in rats and mice via a non-genotoxic mode of action secondary to target organ toxicity.
: Did not show reproductive toxicity effects in animal experiments.
: May cause respiratory irritation.
: No adverse effect has been observed in chronic toxicity tests.

SECTION 12. ECOLOGICAL INFORMATION

12.1 Toxicity
Toxicity to fish : LC50 Oncorhynchus mykiss (rainbow trout), 0.195 mg/l, 96 h
Toxicity to aquatic invertebrates : EC50 Daphnia magna (Water flea), 0.180 mg/l, 24 h
Toxicity to aquatic plants : ErC50 Pseudokirchneriella subcapitata (green algae), 0.53 mg/l, 96 h

12.2 Persistence and degradability
Stability in water chlorothalonil : Degradation half life: < 5 d at 20 ºC. Not persistent in water
Stability in soil chlorothalonil : Degradation half life: ca. 7 d. Not persistent in soil

12.3 Bioaccumulative potential
chlorothalonil : Chlorothalonil has low potential for bioaccumulation.

12.4 Mobility in soil chlorothalonil : Chlorothalonil has low to slight mobility in soil.

12.5 Results of PBT and vPvB assessment
chlorothalonil : This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).
This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

12.6 Other adverse effects
None known.

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
Product : Do not contaminate ponds, waterways or ditches with chemical or used container. Do not dispose of waste into sewer. Where possible recycling is preferred to disposal or
Contaminated packaging

incineration. If recycling is not practicable, dispose of in compliance with local regulations.

Empty remaining contents. Triple rinse containers. Empty containers should be taken for local recycling or waste disposal. Do not re-use empty containers.

SECTION 14. TRANSPORT INFORMATION

Land transport (ADR/RID)

14.1 UN Number : UN 3082
14.2 UN proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (CHLOROTHALONIL)
14.3 Transport hazard class(es) : 9
14.4 Packing Group : III
14.5 Environmental hazards : Environmentally hazardous

Sea transport (IMDG)

14.1 UN Number : UN 3082
14.2 UN proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (CHLOROTHALONIL)
14.3 Transport hazard class(es) : 9
14.4 Packing Group : III
14.5 Environmental hazards : Environmentally hazardous

Air transport (IATA-DGR)

14.1 UN Number : UN 3082
14.2 UN proper shipping name : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (CHLOROTHALONIL)
14.3 Transport hazard class(es) : 9
14.4 Packing Group : III
14.5 Environmental hazards : Marine pollutant
14.6 Special precautions for user : None

14.6 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

not applicable
SECTION 15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Hazardous components which must be listed on the label:
- chlorothalonil

15.2 Chemical Safety Assessment
A Chemical Safety Assessment is not required for this substance.
SECTION 16. OTHER INFORMATION

Further information
Approval number, MAPP 14548; PCS No. 03452.
Use plant protection products safely. Always read the label and product information before use.
Based upon SDS release dated 23/09/2013, version 10 with local amendment.

Full text of H-Statements referred to under sections 2 and 3.

H317 May cause an allergic skin reaction.
H318 Causes serious eye damage
H319 Causes serious eye irritation
H330 Fatal if inhaled.
H332 Harmful if inhaled
H335 May cause respiratory irritation
H351 Suspected of causing cancer
H400 Very toxic to aquatic life.
H410 Very toxic to aquatic life with long lasting effects

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
