CALLISTO TANK MIX LIST

The following tank mixes have been tested for physical compatibility with CALLISTO at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user’s own risk. Syngenta UK Ltd will support the physical compatibility of 2-way tank mixes of CALLISTO with any of the fungicides, herbicides and insecticides listed. For further information on compatibilities, contact Syngenta UK Ltd on 0800 169 6058.

Nutrel Fastphyte High K*** Yara Vita Liquid Manganese 15%

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

*When CALLISTO is tank mixed with PEAK, a non-ionic adjuvant does NOT need to be added.
**When CALLISTO is tank mixed with MILAGRO 240 OD, an esterified rapeseed oil does NOT need to be added.
***All Nutrel trace elements are tested/supported by Nutrel.
CALLISTO is INCOMPATIBLE with Nutrel Maize Micro Booster.
